14th May, 1947.

Asst. District Commissioner,
Tulkarm.

P/R

Subject :- Application for a permit to sink
a well by Kamel Hassan Musleh Obeid,
Et Taiyiba.

Reference:- Your T/28/8 of 10th May, 1947. 77

Under the notice published under the
Defence Regulations 1939 in Supplement No.2,
Palestine Gazette No.1550 dated 16.1.47, no
permit is necessary for the sinking of any
borehole.

2. It is, however, necessary for any per-
son intending to sink a borehole to notify the Water
Commissioner of his intention and he should
do so on a form similar to that attached to this
letter.

3. In Kamel Hassan's case his application
is sufficient notification and he may proceed
with the work.

Translation.

Water Commissioner, Jerusalem.
thro' Asst. Dist. Commissioner, Tulkarm.

Petitioner: Faris Hamdan el Haj Ahmad of Baqa el
Gharbiyah Village Tulkarm, Sub-District.

Subject : Completion of the boring of a well in
Baqa el Gharbiyah Lands.

I have the honour to inform you that I had in 1938
bored a well in my lands in Baqa el Gharbiyah Village the
work having done by a firm from Sarona called Han Brothers.
They went down some 160 meters. War was declared and the
work stopped as the engineers left the country.

Now that things are normal again I wish to complete
the boring of this well, but feel I need your valuable
advice as to whether you consider that it would be wise
for me to continue boring deeper. Then supposing you did
advise such, would it be possible for you to help me secure
a loan to complete the work, keeping in mind that the area
to come under irrigation from the well is around 3000 dunums
on the productivity of which some 250 souls would make a
livelihood.

I am prepared to carry out all you ask of me in the
way of an inspection of the well etc.

Accept my deep respects.

21.5.46,

(Sgd) Faris Hamdan el Haj Ahmad

Translation.

Water Commissioner, Jerusalem.

C/O Asst. Dist. Commissioner, Tulkarm.

I hereby make application for a Permit to bore a well at Tulkarm.

The answers required by the proforma are as follows:-

1. Rushdi Diyab, Manshieh St., Tulkarm.
2. Ibrahim Mohd en-Natur, El Manshieh Quarter, Jaffa.
3. Tripod, pulleys, wire cable, drills, cement casing
4. The contractor has full boring apparatus which is all that is needed at present.
5. The site lies on the left hand side of the Tulkarm Nathanya Road between Camp 27 and Burin.
6. This depends on our luck. The present contract is for 60 meters.
7. Irrigation of agricultural produce.
8. No other sources exist.
9. (a) 62 dunums of vegetables.
(b) Some 100 dunums of neighbour lands also producing vegetables.
10. No well exists to deepen.

With deep respects.

(Sgd)

Rushdi Diyab.

Tulkarm.

29.10.45.

PROFORMA

1. Name and address of the owner of the proposed boring.
2. Name and address of the boring contractor.
3. What controlled materials - including casing, drilling rope, filter mesh, etc., are required for the work?
4. Which of the materials at (3) are in the possession of the contractor or owner of the proposed boring, and which have to be purchased under release permits from the office of the Controller of Heavy Industries.
5. Locality with map or coordinates or other sketch sufficient to show it.
6. What is the depth of the proposed boring?
7. What is the purpose for which water is required? Whether for domestic or irrigation purposes?
8. What existing sources of water belong to the promoter of the new bore, i.e. number of wells their output in cubic metres per hour and per annum drawdown during pumping.
9. In the case of a bore for irrigation purposes state:
 - a) existing irrigated cultivation (area and crops)
 - b) additional areas to be irrigated and type of crops to be grown.
10. In the case of deepening an existing bore state:

(in addition to (8) and (9) above:

 - a) reasons for deepening
 - b) depth, diameter, output in cubic metres per hour and per annum, and drawdown of existing well.

WATER COMMISSIONER,
GOVERNMENT OF PALESTINE,
JERUSALEM.

URGENT

24th October, 1945.

Asst. District Commissioner,
Tulkarm.

Subject:- Unauthorised boring
operations - Ibrahim
Eff. an-Natur.

The Irrigation Officer has found, during a recent inspection, that a new well is being drilled in Tulkarm Sub-District, at a point about 1.5 kilos from the Railway Crossing on Tulkarm-Nathaniya road, by Ibrahim Eff. an-Natur for Rushdi Eff. Diyab and Falah Eff. Hanun, without a permit under Regulation 46B of the Defence Regulations, 1939.

2. I should be glad if you would stop the drilling and inform the Contractor named above that he should first apply for a permit on the proforma attached hereto.

Safad.	Ramle.
Nazareth.	Qaza.

88 511

In connection with the Study of "Water-duty" i.e. the amount of water required for the proper irrigation of various crops and trees in the various parts of the country, I should like to obtain the co-operation of the owners or managers of some of the better-run farms. Information is desired regarding the quantity of water actually used for irrigation, the area under irrigated cultivation - (each crop separately) the yields obtained and the methods of irrigation and cultivation employed.

2. For this purpose, I am prepared to instal a water measuring device at the main supply channel from the spring or the main pipe near the well as the case may be and the measurements will be read from time to time by one of my officers, who will also inspect the area under cultivation and the soil. We should like the farmer himself to keep the records of irrigation and cultivation methods, distribution of water among the various crops and the yields obtained. The "hours of full supply" would at the present stage be a sufficient method of giving the information, in regard to the distribution of water amongst the various crops.

3. It is relatively easy to find and establish such record stations in the Jewish sector, but I would be grateful if you can help me in suggesting suitable farmers in the non-Jewish areas.

H. J. Jardine

WATER COMMISSIONER.

October, 1944.

I shall be glad if you will
furnish me with a reply to my letter under reference.

Assistant District Commissioner,
Tulkarm

1/11/44
WB.

Assistant District Commissioner's Office ,
Tulkarm.

18th October, 1944.

District Engineer,
P.W.D.
Haifa.

Subject :- Extension of Drinking Water Pipe line
across Tel- Aviv Haifa Main Road at Wadi
el Hawareth.

Ref'nce :- Mour 22/6 dated 13th October, 1944.

Can you possibly arrange for the purchase of the necessary piping. For the mukhtars of Wadi el Hawareth(North) to do so in the usual manner will take weeks. Cost, at controlled prices, would be guaranteed.

2. The sum of LP 23 for doing the work will fall too heavily on the small village. What would it cost them to supply all the labour free under the guidance of your officer who would bring with him the necessary tools?

3. I am sure you will agree with me that it is desirable to get the work done as early as possible.

? Remember, pl.

District Commissioner
Samaria District.

Subject :- Extension of Drinking Water Pipe line
across Tel-Aviv Haifa Main Road at Wadi-
el-Hawareth.

----- I transmit herewith copies of a letter to the
District Engineer P.W.D. Haifa and his reply.

2. My own impression is that it could be done, in
six hours, some night by cutting a six inch deep by 2 inch wide slit,
across the road laying the pipe and immediately filling in ~~with~~
concrete ^{or} asphalt mixture.

3. To ask Wadi el Hawareth(North) to pay LP 23
plus LP 15 for pipes, probably only obtainable in the black market,
really seems too much.

4. Is it worth taking up?

GOVERNMENT OF PALESTINE.

Ref. No. 22/6
P.W.D. HAIFA
13th Oct. 1944

Asst. District Commissioner,
Tel-Karem.

Subject :- Extension of Drinking Water Pipe
line across Tel-Aviv Haifa Main
Road at Wadi-el-Hazareth.
Reference: Your TUL/511/28 of 3.10.44

I have caused the site to be examined when it was established that in order to extend the pipes to west side of the main road 22 m.r. of 3/4" pipe and 7 m. of 2" pipe will be required. The 2" pipe will have to be first inserted by drilling at a depth of about 75 cm. below road surface and the 3/4" pipe threaded through this 2" sleeve pipe. The road surface will not be disturbed and traffic not hampered. The cost of this work, labour and fitters excluding cost of pipes 22 m.r. 3/4" and 7 m. 2" is LP. 20.- The Mukhtar has only 4 m.r. of pipe available.

I have no objection to the villagers carrying this work out themselves and will extend to them any technical help required. If however you will like this work to be carried out by this department, please arrange a) for the villagers to first deposit the a/m sum, plus 15% Dept. charges and b) for the necessary pipes to be forthcoming as I have no pipes with me.

DISTRICT ENGINEER P.W.D.
HAIFA DISTRICT.

Copy to: E.S.

 11th Oct. 1941

Asst. District Commissioner,
 Tal-Ahmed.

Subject: Extension of Water Supply
 Line across "Tal-Ahmed" area.
 Ref. No. 2272 of 2.10.41

I have noted the site to be examined when it was established that in order to extend the line to west side of the main road 22 m. at 3 1/2" pipe and 7 m. at 2" pipe will be required. The 2" pipe will have to be first located by drilling at a depth of about 25 cm. below road surface and the 3 1/2" pipe threaded through this 2" sleeve pipe. The road surface will not be disturbed and traffic not hindered. The cost of this work, labour and materials estimated at about 22 m. at 3 1/2" and 7 m. at 2" is 11.20. The District has only 4 m. at 2" pipe available.

I have no objection to the villagers carrying this work out themselves and will extend to them any technical help required. It however you will like this work to be carried out by this department, please arrange for the villagers to first deposit the sum, give the legal charges and for the necessary pipes to be forthcoming as I have no pipes with me.

DISTRICT ENGINEER P.W.D.
 TAL-AHMED.

Assistant District Commissioner's Office,
Tulkarm.

3rd October, 1944.

District Engineer,
Haifa .

Subject :- Extension of Drinking Water Pipe line
across Tel-Aviv Haifa Main Road at Wadi-
el-Hawareth.

A drinking water tap exists at the North end of Wadi el Hawarith (North) village at a place known as "Bassat esh Sheikh Mohammad - Masurat Dar Abu Bissa", approximately one kilo on ~~the~~ ^{our} side of the Haifa boundary line.

2. Falling, as it does, on the East side of the road, women and girls have to cross the road to fill their jars. This has resulted in several fatal accidents in which military motor transport has been concerned. It may truthfully be said to be a menace.

3. In consequence a request was made that the pipe line be carried across the main road and the tap installed on the West side.

4. Piping to do this is now available with the Mukhtar of Wadi el Hawareth (North) - Mustapha Husein es Suruji. Further the village of Wadi el Hawareth (North) is prepared to meet all expenses incurred in carrying out the extension.

5. In the special circumstances of the case, I should be grateful if you could see your way to have the work carried out at your early convenience. If you send me the bill I shall be very pleased to have the money collected and sent to you without delay.

Assistant District Commissioner,
Tulkarm.

21st April, 1944.

Asst. Dist. Commissioner, Jenin.

Subject:- Ein El Maita - Zir'in.

Ref'nce:- Your No. 702 of 4-4-44.

The report on the recent inspection by my Irrigation Engineer indicates that the discharge of the springs is much the same as it was in 1940 before any work was started. However, before it is possible to pass a decisive judgment on the question further measurements of the ~~question~~ flow and a detail survey of the work acquired. I shall arrange for my irrigation Engineer to do this as soon as possible. Meanwhile the payment of the Government loan can be held in abeyance.

In reply to your letter dated 29th of October, 1943, we be to state the following :-

As a result of enquiries from neighbouring and from Radi Eff. Nabulsi concerning the well it was revealed that this well is situated in the orange grove of Radi Eff. Nabulsi which is inherited to him from his late father Haj Nimer Nabulsi. The well in question is situated to the west of El Burj Site and not Burin.

The well was bored by the contractor Mr. Petrides in 1931 and not in 1929 at a depth of 230 metres, who could not find a spring at this depth but all the wells in that area are filter.

The well in question is in the possession of Radi Eff. Nabulsi.

With respects.

Mukhtars of Tulkarm.

Ramzi Arafat, and Mohd. Hassan Harun

3.11.43.

D.O.

Please thank mukhtars for the trouble they have taken. Make sure that a mukhtar or some responsible person knows the exact site & the reply to the W.C. Commission.

Mukhatir - Tulkarm.

In the year 1929 or so, a 250 metres deep bore was drilled in a well situated to the West of Khirbet Burin, Tulkarm Sub-District. The contractor was Mr. Petrides and the owner, very probably, the late Haj Nimer Nabulsi.

2. It is important to find the accurate whereabouts of the site and I shall be grateful if you will investigate this question and report to me before 6 November exactly where the bore is.

13 SEP 1943

14th September, 1943.

TULKARM

Asst. District Commissioner,
Tulkarm.

Subject:- Deep Bore West of Khirbat
Burin, Tulkarm S/D.

In the year 1929 or so, a 230 metres deep bore was drilled in a well situated to the West of Khirbat Burin, Tulkarm Sub-District. The contractor was Mr. Petrides and the owner, very probably, the late Haj Nimer Nabulsi.

2. It is important to find the accurate whereabouts of the site and I shall be grateful if you will investigate this question. If you succeed in siting the bore, please inform me so that the site can be surveyed.

File No:- V/5/42.
CIRCULAR No. 118.

6

I am directed to refer to section 3 of the Irrigation (Surface Water) Bill, 1942, which was published in Palestine Gazette No.1185 of the 9th. April, 1942, and which sets out the duties and functions of the Water Commissioner. Similar duties and functions have been provided in section 3 of the draft Irrigation (Underground Water) Ordinance which has not yet been published as a Bill.

The Water Commissioner's powers and duties in connection with drainage works are laid down in section 3 of the Drainage ~~xxxxx~~ (Surface Water) Ordinance published in Gazette 1204 of 25. 6. 1942.

2. Until such time as the Irrigation and Underground Water Ordinances are enacted and the Water Commissioner is able to assume the necessary powers, it is desirable that he should do everything possible to ascertain, record, and conserve natural resources of water, both surface and underground, and to supervise and regulate the exploitation and distribution of such resources in the most useful manner.

3. The difficulty of carrying out certain of these functions without specific powers is recognised. But it is impossible, meanwhile, without such powers, to carry out hydrographical research in connection with the ascertainment and recording of water resources; to survey and design schemes, and work out provisional distribution rosters.

4. I am therefore to request that Heads of Departments and District Commissioners should consult and cooperate with the Water Commissioner when any schemes ~~xxx~~ involving hydrographical consideration, such as irrigation, drainage, prevention of erosion and the conservation and exploitation of water resources are contemplated. General Regulation 5 is relevant in this connection.

(Sgd). ? ? ? ? ?
f/ CHIEF SECRETARY.

Reference:- My letter D/65/A-1557 of 11.10.38.

With reference to my above mentioned letter, I wish to inform you that I received one record dated 30th October, 1938, of this well, and since this date, no record was received from the Palestine Plantations, Ltd., c/o Dr. H. Weizman, Kfar Saba Post, although monthly ~~returns~~ ^{forms} and reminders were sent to them.

2. I should be grateful if you would be kind enough to urge them to forward the missing records to this Department, informing them at the same time, that I would appreciate receiving these records regularly in future.

11th October, 1938

Asst. Dist. Commissioner,
Tulkarm.

Subject:- Underground Water Control.

For the purpose of permanent control of the underground water supply, a great number of control stations were established in the coastal area. One such station was established in one of the wells of the Tel Mond Area, and readings of the water levels should be made there once every month and the record sent to this Dept. The necessary forms and addressed and stamped labels for free mailing are sent to Pal. Plant. Ltd, Kfar Saba Post c/o Dr. H. Weizmann, at the beginning of each month.

Unfortunately they send the records very irregularly. The last record sent is that of 19th May, 1938, although forms and reminders were sent to them.

I should be grateful if you would urge them to send to this Dept. every month the Underground Water records which are of great importance to the Dept. and the records missing since 19th May, 1938.
